

Village of Hope, Zimbabwe

The Village of Hope Zimbabwe is a centre that offers housing, medical care, education and holistic support to children who have been orphaned because of AIDs or abandonment. It has been in Operation since 2003. North Pointe has assisted in developing homes, a K-12 school, training centre, medical clinic, and feeding program for the community. Families and individuals from NP also sponsor orphans at the Village. There are over 600 students in the school, which has become one of the most respected schools in Zimbabwe for scholastics and athletics.

The Vision: "All Children Loved and Cared for."

The Mission: To bring lasting hope to children in need so they can embrace adulthood as independent and contributing members of society.

VOH has eight children's homes, with over 56+ orphaned children living on site. Some of the orphaned children have AIDS. These children, along with 60% of our student population, are sponsored by believing people from across Canada.

Our feeding program feeds over 250 school children daily and over 80 more in the rural surrounding community.

In 2011 our national exams placed us 4th out of 210 schools, with an achievement level of 96.4%. Recently our school placed 1st in district sports competition. Through our school we want to keep the children's dreams alive. We encourage them to dream big.

Create the Vision. Embrace the dream. Together we can make a difference.
